

Napa Roundtable I HR Presentation

On December 13, 2017, I had the honor of presenting to a special group of HR Professionals on the topic of “Creating and Building Effective Organizational Partnerships.”

In our session we discussed major challenges we as HR Professionals face and actionable solutions designed to help lay the foundation for building mutual respect, trust and inclusion. In establishing this foundation, HR Professionals have the ability to establish, drive and manage partnerships with their counterparts, peers and executives.

The Napa HR Roundtable I is part of a national organization called, Women for WineSense. Napa/Sonoma has eight current professional roundtables providing its members professional development, networking, and educational opportunities, as well as a forum for sharing ideas and discussing “hot issues” facing their day-to-day work. For more information go to “ www.womenforwinesense.org “.
